

BBB Designed Webpage

www.truststartshere.com/"company name"

Benefits:

- Cost effective and helpful for businesses that do not have a webpage to give them a much needed web presence in a cost efficient way
- Increase visibility and reach to highly targeted consumers that are researching the services your business provides

How does it work?:

- The BBB will create a single web page for accredited businesses

Web Page includes:

- Business name, address, phone, fax, e-mail
- Business logo
- Photos
- Paragraph descriptions about the business
- BBB seal that links directly to the Reliability Report

- The web page will be housed on a BBB site with a URL of

- www.truststartshere.com/"company name"

- The page is built with search engine optimization which helps the business maximize exposure on search engines

Other facts:

- Total investment = \$150 annually
- Only available for BBB Accredited Business Members
- The web page is the property of the BBB meaning that if at any time a business accreditation is dropped, the web page will no longer be on the web
- Cancellation of the page can be made at anytime however, if work is done on the page, the BBB will not refund the \$150 investment

If you're interested in learning more about the BBB Webpage Program, please fill out this form and fax it back to the BBB at 414-302-0351. Contact your Business Relations Consultant at 414-847-6060 with questions.
